12/03/2020

Parents/Guardians,

We are currently in very uncertain times due to Covid 19. As of today at 6 p.m. Nagle Rice Secondary School, along with all other schools, will be closed. However the school has contingency plans in place to ensure teaching & learning continues.

Now that schools have closed we are not permitted to give anyone access to the school during this period of closure. We will have to follow the guidelines given to us by the HSE and the Department of Education & Skills. We issued very clear guidelines to students prior to closure today to ensure that they bring home the necessary books, examination papers etc with them.

We intend for teaching and learning to continue using online facilities. We have asked that each student and staff members in Nagle Rice check to ensure that they have access to their school email account. Work will be assigned to students via Google Classroom and email. We would ask parents/guardians to ensure that this work will be completed at home by the students.

While all of our students are important, we have asked that teachers would prioritise students in 3<sup>rd</sup>, 6<sup>th</sup> and 5<sup>th</sup> year while the Board of Management expects that each student will have direction from teachers.

At present, for our State Examinations students, we have no information on dates and deadlines for orals & practical examinations. As soon as we receive any update on these we will communicate this information to you.

Nagle Rice will reopen on Monday March 30<sup>th</sup> as per current guidelines.

If a student has any difficulty accessing their school email account, please contact [emails@nrss.ie](mailto:emails@nrss.ie).

It is important to note that all in the school community should continue to follow HSE guidelines. Please remember, if your son or daughter is feeling unwell and displaying any symptoms associated with Covid 19, please contact your GP and follow the HSE guidelines as outlined on their website.

Yours sincerely,

Bríd Lysaght

Principal
